WCFV helps you to find the best school for your kids

What a captivating time! Soon you will relocate to the Netherlands with your family. And your children will start a new exciting chapter as well. They will attend a new school, will proudly tell you all about what they have learned in class, and will meet new friends. To give them a smooth start in their educational journey in the Netherlands, WCFV offers the Schooling Program.

Every country has its own educational system, which can make it difficult to find your way through the Dutch one. WCFV guides your family through this process. We will explain how the system works and help you understand the Dutch education laws and policies regarding children that are new to the Netherlands and don't speak the language yet. And of course, we will research which schools suit your family's needs and wishes best and accompany you on school visits.

If you are interested in this program, please consult your department's management about the possibilities.

“WCFV started this program because we know how important education is. Its impact determines how your child explores the world. Let us guide you in the search of a school that fits your values and your children's needs”

- Saskia van Donkelaar, Coordinator Schooling Program -
